

PERFECT WEATHER IS NOW HYATT'S PROMISE

If Monday Is a Sample, Salt Laker's Will Be Satisfied.

MONDAY'S TEMPERATURES.
Minimum 47 degrees
Maximum 64 degrees
Mean 54 degrees
Above normal 3 degrees
Forecast: Tuesday, fair.

Monday was an ideal day, in fact the meteorological conditions were almost perfect. Today, Dr. Hyatt says the good weather will continue.

Low barometric pressure prevailed over the eastern slope of the Rockies Monday, with the center of depression over Montana. Low pressure also prevailed along the Atlantic coast and caused cloudy weather with general precipitation over the Atlantic and east gulf states. High pressure, accompanied by fair weather, covered the lake region, Ohio valley and the states West of the Mississippi.

As the western high pressure area advances slowly eastward from the Pacific coast, it will cause fair weather, and mild temperatures over this locality Tuesday.

Monday's meteorological record at the local station of the United States weather bureau for the twenty-four hours ending at 6 p. m., was as follows:
Temperature at 6 p. m., 63; maximum temperature, 64; minimum temperature, 47; mean temperature, 56; wind, light, from the north. Total deficiency of temperature since the first of the month, 1.2 degrees. Accumulated excess of temperature since January 1, 1.1 inches. Accumulated excess since January 1, 1.1 inches. Relative humidity at 6 p. m., 31 per cent.

Nervous Collapse

"I have traveled for thirty years continually. I lost a great deal of sleep, which together with constant worry left me in such a nervous state that finally, after having two collapses of nervous prostration, I was obliged to give up traveling altogether. I doctored continually but with no relief. Dr. Miles' Nervine came to my rescue—I cannot describe the suffering which this Nervine saved me. Whenever I am particularly nervous a few doses relieve me."

A. G. C. LIBBY, Welis, Me.
There are many nervous wrecks. There is nervous prostration of the stomach, of the bowels, and other organs. The brain, the kidneys, the liver, the nerve centers are all exhausted. There is but one thing to do—build up the nervous system by the use of Dr. Miles' Restorative Nervine. Its strengthening influence upon the nervous system restores normal action to the organs, and when they all work in harmony, health is assured. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return your money.

Governor Spry's Mail

Governor Spry's mail Monday brought him one appointment to membership in the Los Angeles organization and two invitations to attend and name additional delegates to conventions.

A communication from Sidney Norman, as secretary, sets out that the governor has been made an honorary member of the Sierra Madre club of Los Angeles, which is organized to provide modern homes for mine and oil operators and those who believe in encouraging those industries in every legitimate manner possible.

In another communication, from Secretary Joseph E. Byers of Randall's island, New York, the governor is asked to attend and appoint delegates from this state to the next annual convention of the American Prison association, which will meet in Seattle, August 14 to 19.

R. Insinger, chairman of the board of control of the National Irrigation congress, which is to meet at Spokane, August 7-14, sets out in another communication that, in view of the importance to this state of the congress in its discussion and action on irrigation, drainage, forestry, deep waterways and home building, the committee in charge of the affair has thought best to suggest to the governor the appointment of a committee of five, with which the congress committee may consult as to the best means to make the coming convention of the greatest possible benefit to Utah. This seems to be a departure on the part of the congress committee.

NOTES OF "U"

The second year preparatory girls at the university entertained the members of the faculty, a large number of students and a number of club women from down town at their tea Monday afternoon in the reception room. The girls served punch and wafers until late in the afternoon.

The members of the senior class are making elaborate arrangements for their class edition of the Chronicle, which is scheduled to appear next Monday. The number is to be on the order of a "Yellow" journal and is in charge of Miss Addie Cannon as editor-in-chief.

The east of the "Cabinet Minister," the inter-collegiate debaters and alternates, will be the guests of the university alumni at a banquet in the gymnasium Friday evening, May 21. The committee in charge of the affair is composed of H. L. Marshall, Manager Hartley of debating and Manager Johnson of drama. This is an annual event in university social circles, but the bringing of the affair to the university campus will be a new feature.

Arrangements have been completed for a debate with the Utah Agricultural college for next year. Percy Goddard, who was a prominent member of Utah debating teams for several years, is at present in charge of the work at the Logan institution and has been instrumental in making the present arrangements.

L. D. S. U. NOTES

Stephen L. Richards addressed the students of the L. D. S. university yesterday morning during chapel exercises. Mr. Richards confined his talk along the lines of how a student should specialize in some subject. He spoke of several citizens of this place, who, through specializing in one subject, had reached success, while others who had confined their attention to various subjects, in an attempt to master them all, had not risen so high, but were still peering away. He spoke of law as a subject that everyone should be familiar with.

The luncheons which are being given by the domestic science department have proven a great success. The past school year these functions have been quite regular. The luncheons are served in the Lion house by the girls who are studying cooking, with Miss Annie Grant in charge.

Hot Stove—Cool Kitchen

How do you expect to endure the broiling days of summer if you prepare all the food over a glowing coal fire?
